

HVLA - Valuing Property Over People?

----- How Many Have Been Forced Out? -----

Have you?

The “Golf First” Group and their supporters, the Bully Group, have driven countless members from HVLA governance; and, from their HOMES! They’ve harassed many into resigning from Boards and Committees. They’ve recalled some in rigged elections. Then, there are those who have dropped-out of any involvement in governance due to feeling frustrated or scared away. Members that those two groups have alienated number in the 100’s over the past 30 years.

Most horrific of all, though, is the fact that these two groups have literally pushed many members into moving and leaving HVLA. **Giving up their HOMES!**

Most who have quit or moved-away were Directors, Committee Chairs/Members and Staff, who were committed to making HVLA a better place for **ALL members**; not just golfers and bullies. More than a few of these good-souls came to HVLA with the expressed purpose of making our Community their final, retirement HOME.

Some members say, “Just don’t get involved in the politics” – perhaps an easy solution. But it’s not so easy for those who care deeply about democratic principles and community well-being.

The “Golf First” Group and their Bully friends seem to care only about controlling HVLA politics, controlling the HVLA-Community narrative and eliminating any challengers, no matter what.

This has damaged HVLA severely and deeply -- **the LOSS of so many good people, good neighbors, potential good leaders.**

Join us on “Hidden Valley Watchdog” (FB) to organize and fight against these “terrorist” owners.
